DESIGNED FOR COMFORT & BUILT TO LAST
HIGH-PERFORMANCE FIRST RESPONDER UNIFORMS  
DESIGNED FOR COMFORT &  
BUILT TO LAST

Hard-working, durable LION StationWear™ shirts, pants and jackets designed specifically for firefighting and emergency professionals

With a history of producing high-quality uniforms that dates back to 1911, LION StationWear for first responders is engineered for easy care, maintenance and long wear. These garments build on the traditions of the past with strength and performance to stand up to the daily rigors found in today’s demanding and unpredictable workplace.

With LION StationWear, you get:

• Designs with features that facilitate job performance
• Construction and reinforcements that meet the challenges of your job head on
• Wicking fabrics that transport sweat away from the body and toward the bunker gear’s breathable moisture barrier

NFPA 1975 Compliant
The underlying purpose of NFPA 1975 is to provide uniforms that are thermally stable and do not contribute to burn injury severity.

Our NFPA 1975-compliant uniforms are made with fabrics, pocketing, labels, waistbands, zipper tape and sewn with thread, all certified to meet this requirement. LION StationWear garments are independently audited and certified.

Lifetime Warranty
LION StationWear is built to last. For durability, versatility and styling features, it is unequalled and warranted. All LION StationWear products are warranted to be free from defects in material and workmanship for the life of the garment.

LION StationWear products are specifically designed for activities performed by professional firefighters and medics. We recognize that your station/work uniform serves more than just an identity function. It is a personal part of the protective ensemble. That’s why each LION StationWear garment is engineered to maximize safety and promote professional pride. You can count on LION StationWear to provide maximum freedom of movement, comfort, utility and long-lasting good looks. Each garment, regardless of style, features high-quality tailoring details that improve its performance and value. We even put in extra bartacks and seams at common failure points.

THE DIFFERENCE IS IN THE DETAILS

KEY SHIRT & PANT TAILORING FEATURES

BUTTON-FRONT SHIRTS

A. Epaulets*
- Fully-lined with fusible liner to maintain crisp appearance after each wash
- Sewn into shoulder seam and finished with a symmetrical “X” box stitch

B. Collar
- Fully-lined with fusible liner
- Permanent collar stays horizontal to the collar edge to ensure crisp appearance
- Topstitched edges for reinforcement

C. Badge Holder (Optional)
- Reinforced eyelets
- Internal support sling is sewn into the shoulder seam
- Optional 1” x 2” badge tab with reinforced eyelets sewn on to left chest

D. Pocket Flaps
- Flaps are fully-lined with Dacron to maintain crisp appearance after each wash

E. Sleeve/Cuffs
- One-piece sleeve set to shoulder with a double-needle safety stitch
- Short-sleeved hems are bartacked for reinforcement
- Cuffs lined with Dacron for additional stability and crisp appearance
- Cuffs have two buttons spaced horizontally 1” apart for adjustable fit

* Epaulets are optional on select shirt styles only.
PANTS

A. Front Pockets
- Quarter top openings with extra wide pocket facing
- Triangular bartack reinforcements at top and bottom points of stress to prevent pockets from splitting at corners through normal wear and tear
- Pocket bottoms reinforced (3.5") with a second layer of pocketing, adding twice the strength by doubling the layers

B. Front Closure
- Double hook and bar allows trousers to remain in service longer
- Both bars stabilized and reinforced by bartacks and interlined backings
- Fully-lined grown-on french fly takes pressure off of double hook and bar
- Fully-lined fly with bartacked reinforcements
- Ratcheting brass zipper stays in place

C. Back Side
- Double welt construction with topstitching to reinforce pocket opening during use
- Triangular bartack reinforcements at side edges to prevent pockets from splitting at corners through normal wear and tear
- Button tab closure on left pocket
- Belt loops are stitched with a double needle and lined. They are also set into waistband to prevent fabric around area at bottom of belt loops from weakening

D. Inner Construction & Additional Features
- Double-folded thickness crotch lining absorbs perspiration and reinforces inseams at high stress area of trouser
- Extended fly tail provides superior reinforcement by connecting all four panels of trouser together at greatest point of stress
- Permanent silicone creasing for superior crease retention with minimal maintenance
Nomex Deluxe Uniform Trouser
NEW WOMEN’S CUT PANTS

ESPECIALLY MADE WITH FEMALE FIRST RESPONDERS IN MIND

Get to know our LION StationWear pant designed specifically for women firefighters. Delivering uncompromising comfort, safety and durability, our NFPA 1975-compliant uniforms allow strength and performance to stand up to the rigors of the job.

LION’s female StationWear pants include:
• Lowered waist for increased comfort
• Adjusted inseam to better accommodate a female figure
• Legs are fuller for greater comfort and freedom of movement
• Added internal take-up straps to waist enabling adjustment to individual fit

Along with the enhancements above, the pants feature:
• Double hook and eye waist closure
• Triangular bartacks at all pocket corners (front & back)
• Reinforced double layer front pockets
• Permanent silicone creasing

StationWear Fabric Options

DuPont™ Nomex® IIIA
Aramid fiber manufactured by DuPont. Blend of 93% Nomex®, 5% Kevlar® and 2% static dissipative fiber
- Inherently flame-resistant – won’t melt, drip or support combustion in the air
- FR cannot be degraded by laundering
- Superior color fastness
- Char length less than 4”
- Moderate moisture regain
- Easy to maintain
- Very low shrinkage
- Color can change with overexposure to UV
- Should not be considered where critical static control is required
- Estimated wear life: 4 years

FireWear®
Blend of 55% FFR (Fibrous Flame Retardant Fiber) and 45% combed cotton manufactured by Westex Fabrics
- Inherently flame-resistant
- FR cannot be degraded by laundering
- Char length less than 6”
- Excellent moisture regain
- Shirts require at least “touch-up” ironing
- Low shrinkage
- Good color fastness
- Should not be considered where critical static control is required
- Estimated wear life: 2 years

100% Cotton
Natural fiber taken from the cotton plant
- Known as the “comfort” fiber
- Untreated cotton has no flame-resistant properties. 100% untreated cotton fabrics will ignite and burn quickly, but will not melt
- Good moisture regain
- Requires ironing
- Tends to wrinkle, fade and shrink due to the nature of the fiber. LION cotton fabrics have special dye and finishing methods to improve color fastness and wrinkle resistance
- May be considered where critical static control is required
- Estimated wear life: 1 year

Poly/Cotton Blend
65% polyester/35% cotton
- No flame resistance and will melt under high heat
- Moderate moisture regain
- Should not be considered where critical static control is required
- Requires at least minimal ironing
- Very low shrinkage
- Good color fastness
- Estimated wear life: 2 to 3 years
LION’s DuPont Nomex IIIA brand fiber StationWear has proven performance and permanent flame resistance.

Nomex Performance Advantages:
- Meets NFPA 1975 Standards
- Self extinguishes
- Won’t melt or drip
- Low fabric shrinkage during flame exposure reduces the chance of skin contact with hot fabric
- Non-toxic when heated to flame temperatures
- FR qualities remain throughout the life of the garment – they won’t wash or wear out

Great Styles, Great Comfort
LION’s classic time-tested styles maintain their shape and fit for comfortable 24-hour wear. Uniforms made of lightweight Nomex IIIA are used by many departments in the hot, humid climates of the southern United States with excellent results in terms of comfort and breathability. Inherently flame resistant for superior performance

Easy to Maintain, Always Looks Great
LION StationWear Nomex IIIA uniforms are literally wash and wear. They can be laundered using normal, commercial laundering or dry cleaning techniques. Because the flame-resistant protection is part of the fiber, the protection cannot be washed or worn out.

Long Wear Means Cost Savings
LION’s Nomex StationWear also exhibits greater abrasion resistance, low shrinkage and color fastness. This translates into superior durability. The average wear life of LION Nomex StationWear is between three and five years. Compare that to one year for cotton or two years for FireWear.

While the initial cost for a garment made with Nomex fiber is more than other fibers, it is significantly less expensive in the long run. Over a four-year period, the total cost (initial price and replacement costs) for 200 sets of shirts and pants of cotton is about $72,000. Garments made from Nomex are just $38,000 (see Figure 1).

ADDING THAT PERSONAL TOUCH

LION CUSTOMIZATION OPTIONS

Adding personalization and identification are final touches to your LION StationWear, and customizing your station uniforms is more than decoration. It’s functional – communicating authority and professionalism with each interaction you have with the members of the community you serve.

Whether it’s a button down shirt, a station tee, a polo or a jacket, LION StationWear offers complete identification and personalization services - including embroidery, emblems, screen printing and reflective transfers.
Measuring Guide

Have someone else measure you. Keep tape straight, but not tight. Measure over undergarments or other clothing that will be worn under your uniform. If your measurements fall between two sizes, order the larger size.

Measuring Men

NECK: On a shirt that fits you well, lay collar flat. Measure collar from center of collar button to far end of collar buttonhole (See Measurement A). Or, measure comfortably around neck.

CHEST: Measure around the fullest part of chest, keeping tape up under arms and across the shoulder blades (See Measurement B).

WAIST: Measure around waist over shirt (not slacks) at position you wear slacks. Keep one finger between tape and body. Or, measure the waistband of a well fitting pair of similar slacks, zipped and closed (See Measurement C).

SLEEVE: Measure from center of neck at back of collar, over the shoulder, along arm, behind elbow, to wrist bone. Or, take marked sleeve length sizing from a dress shirt that fits you properly (See Measurement D).

INSEAM LENGTH: Lay well-fitting, similarly styled pair of slacks flat with crease at back and front. Lift one leg and measure from crotch seam to bottom of slacks leg (See Measurement E).

Measuring Women

BUST: Holding tape gently, measure around fullest part of bust. Keep tape straight and level (See Measurement G).

WAIST: Measure around the smallest part of natural waistline. Hold tape firmly, but not tightly. Keep the tape level and be sure to stand naturally (See Measurement H).

HIPS: Measure around the fullest part of hips. Hold the tape measure firmly, but not tightly. Keep the tape measure straight and level (See Measurement I).

INSEAM LENGTH: Lay well-fitting, similarly styled pair of slacks flat with crease at back and front. Lift one leg and measure from crotch seam to bottom of slacks leg (See Measurement J).

LION Turnouts
Comfort, Safety and Durability
Firefighter safety goes hand-in-hand with firefighter comfort. You need a turnout that offers exceptional thermal protection without limiting your mobility. All standard LION turnouts have:

• Innovative, ergonomic design through every layer of the protective ensemble so that your gear moves when you do.
• The Semper Dri™ System that reduces water absorption in pants legs, coat cuffs and yoke to keep your working weight lighter.
• Knees with water-resistant FR closed-cell cushioning. Lite-N-Dri™ adds thermal protection in this high-compression area.
• The Ever-Dry™ Reach System that reduces vulnerability to water, steam and flame. When you reach, full protection stays on your wrist.

LION turnouts can be customized with additional innovative features to deliver the protection and mobility that’s right for you.

LION Helmets™
Customized for Optimum Comfort
LION firefighter helmets are engineered from a first responder’s perspective for exceptional fit and protection. We combine the time-honored traditions of the fire and rescue service with the latest technical advancements in firefighting materials, design, and manufacturing. And we let you choose the firefighting material that’s best for you, offering fiberglass and leather fire and rescue helmets. The result is a customized fire helmet that’s light and comfortable, but provides optimum heat and impact resistance.

LION Protective Gloves®
LION Protective Gloves joins LION’s existing product offerings of personal protective equipment for the fire service. Through its LION Protective Gloves line, LION will offer several models of NFPA 1971-certified structural firefighting gloves, as well as extrication and wildlands glove offerings.
LION MedPro™
Designed to Answer Any Emergency Medical Call

MedPro features advanced construction and optional enhancements that ensure comfort, safety and mobility.

- Outer shell constructed of Westex® DH fire-resistant, breathable fabric with Hydropel Premier finish for comfortable and durable protection against flash fires
- Durable CROSSTEC™ EMS moisture barrier protects against blood, bodily fluids and water, while remaining breathable
- Superior mobility thanks to banded crotch, underarm bellows and bi-swing back
- PCA reinforced elbows, knees and cuffs increase durability
- Lite-N-Dri™ knee cushioning provides added comfort
- Functional pockets for easy tool access and versatility (Pockets Included: hand warmer pockets, Napoleon pocket, radio pocket and mic tab on coat; full and semi-bellows pockets on pants)
- Custom numeric sizing, waist take-up straps and 18” zippered leg for a custom fitted garment that’s easy to don and doff

LION CBRN
Chem-Bio incidents don’t have to mean hot and muggy disposable suits. LION CBRN offers several NFPA-certified chem-bio ensembles to provide mission-specific protection. Each is lightweight and comfortable, and can be reused as long as you’re not exposed or contaminated.

- **MT94™** – Delivers NFPA 1994 Class 2 vapor, liquid and FR protection for chem-bio incidents (TICs, TIMs and CWAs). Certified to meet NFPA 1994 Class 2 and NFPA 1992 requirements. Available in front and rear entry configurations.
- **ERS** – an Extended Response Suit designed for protection against NFPA 1994, Class 3 vapor and liquid challenges (TICs, TIMs and CWAs). Certified to meet NFPA 1994 Class 3, NFPA 1994 Class 4, and NFPA 1999 single use requirements.
- **Commando®** – Undergarment certified to NFPA 1994, Class 3 requirements for “warm zone” operations. Easily integrates with a variety of equipment and outer garments. The Commando delivers exceptional mobility and comfort in demanding situations.
TotalCare PPE Maintenance & Repair

Turnouts and other PPE represent a major investment for your department. LION TotalCare, the leader in PPE maintenance and repair, can help save you money and keep your gear safer, longer. LION TotalCare is a verified ISP recognized by all PPE manufacturers that provides professional maintenance services that help enhance firefighter safety, extend the life of your PPE and save you money.

LION TotalCare services include:

- Advanced Inspection
- Advanced Cleaning
- Decontamination & Disinfection
- Repair
- Retrofits & Alterations
- Rental Gear
- Emergency Back-Up Gear
- NFPA 1851 Recordkeeping
- Customized Programs

FASET PPE Tracking

Real-time PPE asset management at your fingertips, exclusively from LION

FASET is a web-based fire and safety equipment tracking software program. This tool allows you to track all record-keeping elements required for fire department compliance to NFPA 1851, Standard on Selection, Care, and maintenance of Structural Fire Fighting and Proximity Fire Fighting Protective Ensembles.

FASET also provides the capability to track hose, ladders, SCBA, rescue tools and anything else you want.

- Easy to learn and easy to use
- Free Help Desk support
- Inspection scheduling is made easy
- Saves you time and money

Software licenses for FASET can be purchased from LION. Contact your LION dealer for additional information. LION also offers an optional Symbol LS2208 scanner. The scanner captures manufacturer’s information for error-free data.
LION Fire Academy™

LIONFireAcademy.com Online PPE Usage & Maintenance Program

LION Fire Academy is your FREE online destination for PPE resources and education. Whether you’re a student or instructor, you’ll find videos, training aids and links on all things PPE. Upon successful completion of the full LION Fire Academy program, you’ll also receive Continuing Education Units (CEUs).

LION Fire Academy offers:

• NFPA PPE Safety & Use Instruction
  Learn what every firefighter should know before using NFPA 1971 compliant gear through an in-depth, 12-part video series. Take the test after each video to earn your PPE Safety and Use Certificate.

• NFPA 1851 Training
  This video series trains you to perform Advanced PPE Inspections, Advanced PPE Cleaning and Basic PPE Repairs. Take the test afterwards to earn your Manufacturer Trained Personnel Certificate.

• LION Product Training
  Instructional videos about the fit, form and functionality of LION PPE products.

To learn more or start your LION Fire Academy training, visit us online at www.lionfireacademy.com.
